CAREER OBJECTIVE

To obtain an entry-level position as a Software Tester where I can apply my knowledge of manual testing, test case design, and bug tracking. I aim to contribute to delivering high-quality software while continuously improving my testing skills.

PROJECT

Online Railway Reservation System (Testing Project)

- Created and executed test cases for booking, login, and payment modules
- Performed functional and regression testing
- Identified and reported bugs with proper documentation
- Validated database entries using SQL queries
- Prepared detailed bug reports with severity and priority

Bill Generator Web Application (Testing)

- Tested dynamic billing features and calculations
- Verified UI functionality and responsiveness
- Created test scenarios for edge cases
- Reported defects and ensured bug fixes
- Performed cross-browser testing

Certification

- Manual Software Testing Training (Self-Learning)
- QA Testing Concepts (STLC, Test Cases, Bug Reporting)
